

SODECO™ BNA56/54

Banknote validator

with stacker and removable security cash-box

Application

For high volume of transactions per day, for operators with separate cash-box collection and revenue centre

- Ticket vending machine
- Stationary and mobile ticketing application
- Car park pay automate
- Petrol pay terminal
- Dispensing and revaluating pre-paid cards

Features

- 6, 13, 30 or 90 banknote types with 4-way insertion
- Best banknote acceptance at first insertion
- Fast transaction time: 3 seconds between two notes, including stacking
- Quantum leap in security
- New banknotes programmable through network
- Unrivalled reliability, gives lowest cost of ownership
- Cash-box BNA541 for up to 1000 banknotes or BNA542 for up to 2000 banknotes
- Simple to service and easy to maintain

BNA56

BNA541

SODECO™ BNA500 series. Ready for the future, right now.

mei™

Range Features

These features are common to the full SODECO™ BNA500 series:

Validator

- Universal inlet with LED indicator, anti-card device, made in robust metal alloy with ergonomic design
- Exceptionally high first acceptance – 98% – with outstanding security
- Works in harsh operating environment (0° to +60°C). Inlet to as low as -20°C (dry), optional anti-ice heating
- Compact, space efficient size
- Same 3 fixing points for all BNA 500 products
- Additional 2 fixing points with BNA 542 configuration
- Full control of the banknote transport ensures low jam rate
- Controlled inlet and outlet flaps defeat manipulation
- Validator opens easily without tools for easy cleaning access
- On-site banknote configuration with a PC or via a network

Removable security cash-box

- Banknotes perfectly stacked inside the cash-box
- Sturdy construction, fast and secure cash-box interchange, electronic identification
- Different keys for cash-box collection and revenue centre
- Locking shutter mechanism with automatic reset, several optical and electronic detectors for cash-box handling and identification

Polycarbonate cash-box for up to 1000 banknotes
BNA 541-1 for front insertion
BNA 541-2 for rear insertion

Stainless steel cash-box for up to 2000 banknotes
BNA 542-1 for front insertion
BNA 542-2 for rear insertion

World-wide service and repair operation

Dimensions

- A: Banknote insertion
 - B: Banknote stacking
 - C: Banknote return
 - D: Open validator
 - E: Automat front panel
 - F: Fixing points M5
 - G: RS 232 & 24 VDC connections
 - K: Key for extraction
 - L: Key for opening
- Cut-outs in the automat door 130 x 130mm

All power and communication connectors are integrated within the overall dimensions

Technical Specification
