GBA ST1

The popular Global Bill Acceptor, GBA, is a widely distributed and accepted bank note reader, which is renowned for its simplicity, reliability and capacity to accept a wide range of world currencies.

The GBA ST1 offers a compact, vertical up or down note stacking solution, particularly designed to suit the vending industry. It is a global product, which can be used in all international markets with the snap-change of a note guide. The note cassette can be easily removed and replaced. Optionally, the cassette may also be locked.

With a new, technologically advanced note validation platform, the GBA ST1 is an excellent and reliable solution for its market place, both in terms of its wide range of note validation and its sturdy housing.

Key features:

- A wide range of interfaces, including : MDB, Parallel, Pulse, Serial, SSP, ccTalk
- Accepts up to 32 notes, in 4 directions (max note width 80mm)
- Illuminated, flashing note guide as standard
- Snap-fit, interchangeable note guides
- Single Note Escrow
- FLASH download capabilities
- Optional magnetic head
- Sensor auto-calibration
- Push button, on-board diagnostics
- Range of lockable (optional) and removable note cassette sizes
- Comprehensive GBA Talk software support package
- Stylish fascias to suit a wide range of applications
- Simple access to the internal ST1 note path.

The GBA ST1 has wide ranging applications in markets requiring a simple, reliable note stacking solution.

Support

Backed by dedicated teams of research and development engineers, sales professionals and support staff, the GBA product is our commitment to a vision of product excellence and customer satisfaction.
